

# A SMARTER WAY TO WORK FROM HOME

**Want help creating  
your home office?**

[CLICK HERE.](#)

## Personal Speaker

Your built in speakers may be sufficient, but if you need added volume and don't want to wear earbuds all day, consider adding a USB personal speakerphone to your home setup. With higher-quality audio than your phone or computer can deliver, it elevates every call.

Poly Calisto 3200

\$99.95

## Dual Monitors

To add some additional real estate, set up your home office with dual 22" Narrow Bezel Desktop Monitor. These have IPS Panel, Integrated Speakers and LED Backlighting.

NEC AS221F-BK

\$159

## USB Webcam

If your home computer isn't equipped with a built in camera, or you need a better visual experience, here are two great options that our clients use:

Logitech C310 Webcam

\$49

C930E Business Webcam

\$129.99

## Immersive Space

Want a fully immersive experience from your home office? The Crestron Flex has you covered. This is an advanced voice-over-IP desk phone that integrates seamlessly. It takes a new approach to the notoriously complex and disjointed world of telephony, taking advantage of the Crestron platform to bring Microsoft Teams™ functionality to every individual workspace, even your home office.

Crestron Flex

MSRP Starting at  
\$4,850
